LAKE COUNTY AREA PROFILE

Lake County lies within the coastal range of mountains approximately 100 miles north of San Francisco and 35 miles east of the Pacific Ocean. It is surrounded by Mendocino County on the west, Sonoma and Napa Counties to the south, and Yolo, Colusa and Glenn Counties on the east. State Highway 20 connects the area with both U.S. 101 and Interstate 5. The northern third of the county is largely unoccupied, much of it lying within the Mendocino National Forest.

According to the 2010 Census Data, the total population in Lake County was 64,665. This included the unincorporated population of 44,662 and the incorporated population of 20,003. Clearlake is the larger of the two incorporated cities, with a population of 15,250. Lakeport has a population of 4,753. The majority of the population of the county resides along the shores of Clear Lake, the most prominent geographical feature of Lake County.

Lake County, although rural in nature, has a number of transportation problems. The ground transportation network is impacted by topography, a growing resident population, declining financial resources and high nonresident recreational traffic use. The more important issues are identified in the 2010 Regional Transportation Plan, adopted October 11, 2010.

The largest income producing industries are agriculture, located in the lowlands to the west and southwest of Clear Lake, tourism, and geothermal development, located in the mountainous terrain in the southwestern portion of the County. In recent years, employment associated with tribal economic development has also become a significant factor.

Finally, another important factor facing the region is the steady increase of commuting traffic. To look at this issue more closely, a four-county Inter-Regional Partnership (IRP) Report was completed in June 2004 concerning jobs-housing imbalances in Mendocino, Lake, Napa, and Sonoma Counties. The report presented the case that, even though a jobs-housing imbalance crisis may not be apparent yet, indications are that if nothing is done this will be a serious issue in the near future. A County-Wide Micro Simulation Model was completed in FY 2012/13 to analyze projected traffic growth and prioritize transportation projects on the State Highways in Lake County. The Middletown Community Action Plan and Engineered Feasibility Study were also completed in FY 2013/14 to enhance interregional and regional travel while balancing the community of Middletown's needs.

LAKE APC OVERVIEW

The Lake County/City Area Planning Council (APC) was established in June 1972 by a Joint Powers Agreement. Subsequently, it was designated by the Secretary of Transportation as the Regional Transportation Planning Agency for Lake County. The cooperative relationship between Caltrans and Area Planning Council was formalized by a Memorandum of Understanding.

The member entities amended the Joint Powers Agreement in 1986 to change the membership of the Area Planning Council. It is now composed of eight (8) members, including two (2) members of the Lake County Board of Supervisors, two (2) city council members from the City of Lakeport, two (2) city council members from the City of Clearlake, and two (2) citizen members selected at large by the Board of Supervisors. Two committees serve to advise the Area Planning Council.

The Policy Advisory Committee (PAC) is composed of the members of the Area Planning Council itself, together with the District One Director of Transportation, or his representative, from the Caltrans Office in Eureka. The Technical Advisory Committee (TAC) is composed of the Director of Public Works of Lake County, the Community Development Directors of Lake County and the cities of Clearlake and Lakeport, the City Engineers of Clearlake and Lakeport, the Commander of the Lake County Office of the California Highway Patrol, and a transportation planner from the Caltrans District One Office.

The Lake County/City Area Planning Council has an active Social Services Transportation Advisory Council (SSTAC). The SSTAC was established to meet the intent of Senate Bill 498 (1987). The SSTAC assists the Area Planning Council in the identification of transit needs that may be reasonable to meet by establishing or contracting for new public transportation services, or specialized transportation services, or by expanding existing services. Recently the SSTAC has been meeting more frequently and in conjunction with the Lake County Transportation Coalition to facilitate coordination of public transit and other transportation needs.

REGIONAL PLANNING EFFORTS

In October, 1995, the Area Planning Council adopted the Transit Improvement Plan. This Plan was the culmination of a comprehensive transit study performed by a consultant with extensive input from County and City representatives, local elected officials, transit providers, and a wide range of interests in Lake County. One of the major recommendations of the Plan was to form a Transit Authority to provide transit service in Lake County through a Joint Powers Agreement. Establishment of a Transit Authority was approved by the County and the two incorporated cities in December, 1995. In addition, a part-time Transit Manager was hired on a contract basis to oversee transit development and implementation of the Transit Plan.

Lake County 2030, a comprehensive planning tool, was completed under Work Element 618 of the Work Program. This project was partially funded with State Planning and Research and Rural Blueprint grant funds that were provided through Caltrans. Phase I of the project began in Fiscal Year 2007/08, and consisted of preliminary outreach to the local agencies and many other potential stakeholders of the project. This phase also included gathering and developing data to run the model for this project. The second phase of this project was completed in Fiscal Year 2008/09 and included an extensive outreach process by APC staff and MIG consultants to gain knowledge and input by the citizens, local elected officials, local agencies and other stakeholders of their “vision” for Lake County.

In February 2009, the Lake APC staff received word from the Department of Transportation (Caltrans) that the grant application to complete Phase III of the Blueprint Program in the amount of \$140,000 had been approved. During Fiscal Year 2009/10, the vision and principles, and draft alternative scenarios were developed that were derived from the Public Involvement (Phase II) of the Blueprint project. Further public outreach was conducted in the spring 2010 to determine the ultimate preferred “growth scenario” for the County. During Phase III of the Blueprint Program, staff coordinated with local agency planning staff in the development of the data used in the UPlan model. The Blueprint Advisory Committee (BPAC) developed four alternative growth scenarios that could be compared to each other in another series of community workshops, for the eventual consensus on a Preferred Growth Scenario. The five Phase III workshops were held in February and March of 2010, with two follow-up workshops on a draft Preferred Growth Scenario in June 2010. The Final Blueprint Plan was adopted in October 2010 and summarizes all three phases of the Lake 2030 Regional Blueprint process.

In 2011 Caltrans awarded the Lake APC funding to complete the fourth and fifth phases of the Regional Blueprint process. Phase IV developed tools and resources to help local agency staff and project designers, property owners and developers to incorporate Blueprint Principles into planning documents and development project plans. Phase V also conducted additional implementation activities from the tools that were developed in Phase IV.

In July 2011, the Lake APC received notification from Caltrans that we had been awarded Partnership Planning funds to complete a Community Action Plan (CAP) in Middletown. The purpose of the CAP is to conduct a comprehensive community outreach effort in Middletown to assist with the development of transportation alternatives along the corridor. Caltrans District 1 also received State Planning & Research funding in 2011 to complete an Engineered Feasibility Study (EFS) within the south portion of the SR 29 corridor to analyze potential transportation improvement alternatives to enhance interregional and regional travel while balancing community needs. The project was completed in FY 2013/14.

Lake Area Planning Council was awarded 5304 Rural Transit Planning funds in August 2012 to conduct a Transit Development Plan Update and Marketing Plan. The consultant and Lake APC worked in partnership with Lake Transit Authority to complete the Plan June 2015. Several of the project's tasks include public outreach, including completion of surveys and interviews of existing and potential riders of the transit system. The Plan will develop a five-year operating and capital plan including cost projections. The Marketing Plan will provide marketing strategies and tools to promote the transit system.

The Lake County/City Area Planning Council in partnership with Lake Transit Authority received Sustainable Communities Transportation Planning Grant funds to complete a Transit Hub Location Plan under this current Overall Work Program. This project will involve extensive, interactive community engagement with a broad range of stakeholders to identify locations and options for a new transit hub in the City of Clearlake.

In 2015/16, the Lake APC initiated the development of the Lake County Active Transportation Program (ATP) Plan to strengthen the opportunity for future grant funds for Active Transportation projects throughout the region. The Plan will identify and prioritize non-motorized and transit improvements projects in Lake County. The Lake APC received Rural Planning Assistance (RPA) grant funding in the amount of \$40,000 to enhance the level of public participation and provide assistance to the local agencies.

The Lake County/City Area Planning Council will incorporate the planning factors identified in the recently passed Federal transportation bill, Fixing America's Surface Transportation (FAST) Act, while preparing and implementing planning projects throughout the region.

INTRODUCTION

The Area Planning Council's Transportation Planning Work Program is prepared annually to identify and focus the next year's transportation planning tasks. These tasks are envisioned and are to be fulfilled in accordance with the goals and policies of the Lake County Regional Transportation Plan (RTP) and other planning documents prepared by the Lake APC. The primary goal is to develop a safe, balanced, practical and efficient regional transportation system. This entails timely maintenance as well as capital improvements to the transportation network, which includes the streets and highways.

Since the Fiscal Year 1986/87, the Lake County/City Area Planning Council (APC) has contracted with a consultant to do most of the technical planning efforts in the Work Programs. Dow & Associates entered into a contract with the Lake APC (effective October 1, 2006) to continue to perform planning duties. In December 2008 and again in April 2012, the APC Board acted to renew its contract with Dow & Associates for an additional three years.

In June 2014, the Lake APC advertised for an Administration/Fiscal Contractor, as well as the Planning duties to be conducted under the Overall Work Program. Dow and Associates was awarded the Planning contract for a five-year period (effective October 1, 2014). Grant funded work elements will likely be completed by consultants hired under this contract and administered through Dow & Associates.

PUBLIC PARTICIPATION

The Area Planning Council encourages public participation in the planning and decision making process and holds public hearings whenever an important decision concerning transportation is imminent. In addition to these public hearings which are announced in local newspapers, parties known to be interested in specific issues are invited to both the Technical Advisory Committee and the Area Planning Council meetings, when appropriate.

As required by SAFETEA-LU, the Lake APC developed a Public Participation Plan in Fiscal Year 2008/09 to enhance its public outreach efforts. The development of this Plan includes strategies to engage and notify the public when conducting planning activities. The plan provides a clear directive for public participation activities of the APC, particularly when they pertain to the development and implementation of the Regional Transportation Plan (RTP), Regional Transportation Improvement Program (RTIP), Overall Work Program (OWP), administration of the Transit Development Act (TDA), Federal and state grant programs, Coordinated Human Transportation Plan, transit studies, area transportation plans, blueprint planning and other special projects.

The Lake APC began the update of the Lake County Regional Transportation Plan in Fiscal Year 2008/09, which was adopted in October 2010. An extensive public outreach effort occurred during the development of this long-range transportation planning document. An update to the current document is scheduled to begin this FY 2015/16, with an expected plan adoption of October 2017.

As discussed in the previous section, the Lake APC conducted an extensive public outreach for multiple years as part of the development of the regional Blueprint plan, Lake County 2030.

The Lake APC also received two grants in July 2011, one of which included Community-Based Transportation planning grant funding to complete a Downtown Corridor Plan in the City of Clearlake. The other included Partnership Planning grant funds to complete a Middletown Community Action

Plan, which was conducted simultaneously with the SR 29 Engineered Feasibility Study. These planning projects included tasks to conduct extensive public outreach activities through a charrette process.

The Lake APC provided funding in the Overall Work Program to update the Human Services Coordinated Plan, completed June 2015. The update conducted outreach, data collection and analysis to determine gaps in service and strategies to improve mobility to low-income, older adults and those with disabilities.

A Title VI Program was also conducted in 2013/14 which is required by Federal regulation to those who receive FTA funding. The Plan is required to be updated every three years and submitted to Caltrans. The Program requires a complaint procedure process, minority representation on advisory bodies (at times), interpretation opportunities and outreach to the limited English proficient (LEP) populations. Transit providers, such as Lake Transit Authority, who provide fixed-route service, must provide additional information.

COMPLETED PRODUCTS IN PRIOR WORK PROGRAM

Appendix A includes a brief synopsis of products that were completed in the 2015/16 Work Program.

2016/17 WORK ELEMENTS

The Lake County/City Area Planning Council is dedicated to working cooperatively with all agencies to provide comprehensive planning in the region. There are two **new** work elements included in the 2016/17 work program. The remaining elements are either ongoing work elements that appear repetitively in Work Programs or carryover projects that will be completed in this Overall Work Program. Several projects are also discussed below that are support planning efforts on a regional level.

The following work elements are included in the 2016/17 Work Program, and are briefly described below:

- ✓ Work Element 600 – This work element includes funding for general planning activities to be completed by the regional transportation planning agency (Lake APC), the transit agency (Lake Transit Authority), County and two cities.
- ✓ Work Element 601 – This work element will help determine the need for public transportation in Lake County and strive to provide a reliable source of mobility for all citizens.
- ✓ Work Element 602 – An element initiated in Fiscal Year 2007/08 to provide transit service performance monitoring on an ongoing basis for Lake Transit Authority.
- ✓ Work Element 603 – This carryover project will create an Active Transportation Plan (ATP) for the Lake County region. The ATP will identify and prioritize non-motorized and transit station/stop improvement projects and conduct public outreach to strengthen future grant applications for Active Transportation projects within the region.
- ✓ Work Element 604 – This element has been designated as a *reserve account for planning* projects to be completed by Lake County, City of Lakeport and City of Clearlake that are often not funded due to a lack of funding from year-to-year in the Overall Work Program.
- ✓ Work Element 605 – This work element continues to provide funding to assist agencies in the preparation of applications and monitoring of Federal and State grants to improve the transportation system in Lake County.
- ✓ Work Element 606 – This work element was established as an ongoing to gather and interpret roadway, traffic, and accident data for Lake County in order to establish and enforce appropriate traffic speed limits in the community.
- ✓ Work Element 607 – Special Studies has been included in the past several work programs and will be used to perform studies, collect data, update the transportation data base, respond to local issues, and aid in implementation of the Regional Transportation Plan, and other projects as needed.
- ✓ Work Element 608 – Planning, Programming & Monitoring is an ongoing work element to provide assistance associated with project development for Regional Improvement Program projects and other planning activities

- ✓ Work Element 609 – This carryover project will be to finalize the development the Transit Hub Location Plan for the Lake Transit Authority. It will involve extensive, interactive community engagement with a broad range of stakeholders to identify locations and options for a new transit hub in the City of Clearlake
- ✓ Work Element 610 – To encourage growth to bicycle and pedestrian travel to the region by integrating and promoting bicycle and pedestrian facilities and services with roadway and transit planning operations.
- ✓ Work Element 611 – Pavement Management Program Update, an ongoing project to provide a systematic method for determining roadway pavement maintenance, rehabilitation, and reconstruction needs. Triennial updates are conducted to provide an updated streets/roads inventory.
- ✓ Work Element 612 – Technology Support Services has been an ongoing project to provide GIS support services to agencies within Lake County involved with the roadway transportation system, aviation, bike/pedestrian, and transit planning. The name has been changed to incorporate additional technology needs in the county.
- ✓ Work Element 613 – Transportation Information Outreach is a work element that informs and educates residents of Lake County on transportation related activities. This work element also maintains the agency’s website
- ✓ Work Element 614 – The Countywide Sign Inventory Project is a **NEW** work element to provide the County of Lake and cities of Lakeport and Clearlake with a current inventory of all traffic signs on the maintained street/road systems.
- ✓ Work Element 615 – The Regional Transportation Plan is a long-range planning document that provides a clear vision of the regional transportation goals, policies, objectives and strategies for an effective transportation system for Lake County. The plan guides decisions about all types of transportation and the related facilities needed for an effective transportation system. Statute requires RTP updates every five years.
- ✓ Work Element 616 – This work element will provide training to staff of upcoming requirements for grant programs, changes in technologies relating to transportation planning, and other useful educational opportunities as needed.
