**Lake County Local Road Safety Plan (LRSP) – Public Meeting Announced**

**Date:** March 23, 2026

**Time:** 5:00 PM – 7:00 PM

**Location:** Lakeport City Council Chambers  
225 Park St  
Lakeport, CA 95453

**Description:** The Lake Area Planning Council (Lake APC) invites community members to attend an open-house public meeting to learn about ongoing updates to three Local Road Safety Plans (LRSPs) for the County of Lake, the City of Clearlake, and the City of Lakeport.

**What is a Local Road Safety Plan (LRSP):** A Local Road Safety Plan (LRSP) is a study that identifies and prioritizes roadway safety improvements on local roads. The process relies on data analysis, field evaluation, and collaboration with community members and local agencies to better understand safety conditions and identify strategies to reduce the number and severity of crashes across the region.

## **Format: In-person and online**

### In-person

The public meeting will be held in an open-house format. Attendees may arrive at any time and stay for any length of time. The team will open the meeting with a brief presentation describing the project. After, the presentation will play on a continuous loop throughout the evening. Community members will have the opportunity to speak with members of the project team, ask questions, provide feedback on roadway safety, and complete a survey regarding local traffic safety.

### Online

For those who wish to learn more but are unable to attend in person, use the following link to attend online from 5:00-5:15 PM for the live presentation:

Meeting ID: 859 6103 2385

Passcode: 286793

Following the presentation, you will be able to leave comments in the chat. Participants can also take the survey at any time, link below.

**Survey:** As part of the LRSP updates for the County of Lake and the cities of Clearlake and Lakeport, the Lake Area Planning Council is gathering input from residents about local traffic safety issues. The survey provides an opportunity to share experiences, highlight locations of concern, and help the project team gain a clearer picture of roadway conditions throughout the region.

The survey takes **less than 5 minutes** to complete, and respondents may pinpoint specific areas where they believe safety improvements are needed.
